

Harvard Online Statistics Course Instructions

We have setup an online statistics course through Harvard Business School Publishing. Successful completion of this course (75% or better) is a pre-requisite for the Professional Track Decision Analytics program. Each applicant will have two opportunities to take the test. Once registered for the course, access to the course materials is available for 12 months.

A waiver of the statistics course requirement may be requested if an applicant meets one of the following criteria:

- holds an advanced degree in a quantitative discipline (e.g., science, mathematics, engineering, statistics)
- successfully completed (B or better) a graduate level statistics course or two undergraduate statistics courses in the past three years
- received a score of 75% or better on the Harvard Online Statistics pre-test
