Master of Accountancy with a concentration in Information Systems and Analytics

Students who have completed a bachelor’s degree in a field of study other than accounting from an accredited institution may be admitted directly to the Master of Accountancy program, but are encouraged to complete the Post-Baccalaureate Undergraduate Certificate in Accounting first. Completing the certificate program prior to the Master of Accountancy allows the student to fulfill the required accounting prerequisites prior to entry. Students who have unfinished required prerequisites upon entry to the Master of Accountancy program will need to complete them while in the program, and this may delay graduation.

This degree requires completion of 10 graduate courses (30 credit hours). Students applying directly to the Master of Accountancy program must complete the full application here: http://business.vcu.edu/graduate/howtoapply.html

Students applying to the Post-Baccalaureate Undergraduate Certificate in Accounting can find information about the program here: http://business.vcu.edu/undergrad/prospectivecertificatestudents.html

### Required Graduate Accounting Courses (15 cr.)
- ACCT 604 Advanced Auditing
- ACCT 610 Forensic Accounting
  - OR ACCT 513 Advanced Accounting
- ACCT 662 Advanced Topics in Acct Info Systems
