**Fall semester
begins August 21!**

Asynchronous Modules:

In addition to the online course sessions, you will have 6 asynchronous modules to complete at your own pace prior to the last weekend of classes.

Concentration Topics:

National Perspective

Develop an understanding of how health care evolved in the United States and articulate major policy issues. Course emphasizes the major components of health care reform and what policy issues they are intended to address. Focus is on how information technology supports quality of care, the business of health care and health care reform.

Employer's Perspective

Develop an understanding of the business and financing of health care. Course emphasizes the design of insurance costs, the associated costs and employer options. Also explore how wellness affects population health and health care costs.

Industry Perspective

Develop an understanding of the unique economic issues of health care, the importance of process improvement and compliance for health care organizations and the effect of costs. Course focuses on the roles of innovation and marketing in the health care industry.
